

1-meter strobe and blinder that combines power and versatility

The Eliminator Lighting Elecktron Bar FX is a versatile and powerful lighting effect, designed to bring vibrant colors and excitement illumination to any entertainment events, performances, or venues. Equipped with seven 40-Watt Amber (1800K) LEDs and 528x 0.5-Watt RGB (5050 SMD) LEDs, this fixture creates stunning visual effects, blending warm amber tones with dynamic RGB color chases and for endless creative possibilities.

With 60 built-in programs, a full dimming range (0–100%), and an adjustable strobe rate of 0–20 flashes per second, the Elecktron Bar FX gives you complete control over your lighting ambiance. Whether you're using DMX512, primary/secondary, or sound-activated modes, you can seamlessly adapt the effect to your needs with its 7, 12, or 20-channel DMX modes.

Engineered for reliability and convenience, the Elecktron Bar FX features advanced physical features such as locking In/Out power connectors, 3-pin DMX IN/OUT, and a 4-segment LCD display for intuitive operation. Its durable design is complemented by adjustable hanging brackets for floor or truss mounting. Plus, a 3-fan cooling system ensuring peak performance during extended use.

Compact and lightweight at just 10.5 lbs. (4.8Kg), with professional-grade components, this IP20-rated lighting effect is perfect for DJs, stage productions, or venues and event productions. Transform your space and create stunning visuals with the Elecktron Bar FX.
