No further relevant information available.

Section 5. Fire Fighting Measures

Extinguishing media

Suitable Fire Extinguishing Media : Carbon dioxide, dry chemical extinguishers, water spray alcohol-resistant foam.

Unsuitable Fire Extinguishing Media : None.

Special hazard arising from the substance or mixture

: Hazardous combustion products may include carbon monoxide, chlorinated compoundse. The vapor is heavier than air, spreads along the ground and distant ignition is possible.

Combustion Products

: Carbon monoxide, carbon dioxide, nitrogen oxides, and etc.

Advice for firefighters

Special fire fighting procedures : As soon as possible, remove the goods from fire to open place. For small fires, use dry chemical, carbon dioxide, water spray or alcohol-resistant foam. For large fires, Standing on the windward, use water spray, fog, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Do NOT use straight streams of water.

Section 6. Accidental Release Measures

Person precautions protective equipment and emergency procedures : Emergency response is unlikely unless in the form of dust. Avoid inhalation, eye, or skin contact of dusts by using appropriate precautions outlined in this MSDS (see section 8). Fine turnings and small chips should be swept or vacuumed and placed into appropriate disposable containers. Keep fine dust or powder away from sources of ignition. Scrap should be reclaimed for recycling. Prevent materials from entering drains, sewers, or waterways.

Environment precautions : Prevent to enter sewage, soil, river and sea.

Methods and materials for containment and cleaning up : Use the cleansing scoop to collect into container with lid that it dry and clean. Ventilate and watering after clean. Do not flush away residues with water. Retain as contaminated waste. Remove contaminated soil and dispose of safely

Section 7. Handling and Storage

Precautions for safe handling : Operating personnel must train specially and follow close to the line of operating instruction.
Ensure good ventilation/exhaustion at the workplace. Minimize vapor/aerosol generation and accumulation.
Wear suitable protective clothing, gloves and eye/face protection.
Do not eat, drink or smoke in working areas. Wash skin thoroughly before breaks and after handling.
Equip with relevant types and quantities of extinguishment instruments and device for divulgence handling.

Conditions for safe storage, including any incompatibilities : Store in cool, dry, ventilated place.
