Congratulations on your purchase of this high quality American DJ® product. For your convenience the Super Strobe MKII has been lamped and is ready to be used. Please read the following instructions before installing or using your new Super Strobe MKII. Thank you for purchasing the Super Strobe MKII by American DJ®.

Operating Instructions:

1. The strobe is equipped with a speed dial located on the rear of the unit for local speed adjustment.
2. The Super Strobe MKII is equipped with an optional remote facility input and output for syncing strobes when using the optional remote controllers S-10A or S-4A. There are two 1/4" mono jacks on the rear of the super Strobe MKII.

CAUTION:

Always unplug unit before any attempt to service. To replace lamp, remove the front plastic cover by lessening the front screws on the plastic cover and remove lamp. There are no serviceable parts inside. Do not take the metal housing apart. Strobes retain High Voltage inside. If you require further technical assistance, contact your local American DJ dealer.
