Section 2. Hazards identification

Hazards Classification

GHS Classification in accordance with Hazard Communication standard (OSHA HCS) 29 CFR 1910.1200, the sample is divided into the following hazard category.

Physical hazard : Not classified as physical hazard category.

Health hazard : Not classified as health hazard category.

Environment hazard : Not classified as environment hazard category

Label elements

The product does not need to be labelled in accordance with GHS Classification and Hazard Communication standard (OSHA HCS) 29 CFR 1910.1200.

Other hazards

No further relevant information available.

Section 3 Composition/Information on Ingredients

Chemical Name	Molecular formula	Percent of Content (%)	CAS No.	EC No.
Acrylonitrile Butadiene Styrene plastic	Andorek A	botek 50	9003-56-9	ek Anbotek

Section 4. First Aid Measures

If breathed in dust/smoke/vapour/mist, remove victim from exposure and move to fresh Inhalation

air immediately. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen and seek medical advice immediately.

Skin Contact If on skin, Wash affected skin with soap and plenty of water.

Eye Contact If contact with dust/smoke/vapour/mist, rinse immediately with plenty of water for 15

minutes. If persist irritating, seek medical advice immediately.

If swallowed, rinse mouth with water. Never give anything by mouth to an unconscious Ingestion

person. Seek medical advice immediately.

Most important symptoms and effects, both acute and delayed

Avoid breathe in dust/smoke/vapour/mist.

Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5. Fire Fighting Measures

Extinguishing media

Suitable Fire Extinguishing Media

Unsuitable Fire Extinguishing Media

Special hazard arising from the

substance or mixture

Combustion Products

Carbon dioxide, dry chemical extinguishers, water spray alcohol-resistant foam.

None.

Hazardous combustion products may include carbon monoxide, chlorinated compoundse. The vapor is heavier than air, spreads along the ground and distant ignition is possible.

Carbon monoxide, carbon dioxide, nitrogen oxides, and etc.

Advice for firefighters

Special fire fighting procedures

As soon as possible, remove the goods from fire to open place. For small fires, use dry chemical, carbon dioxide, water spray or alcohol-resistant foam. For large fires, Standing on the windward, use water spray, fog, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Do NOT use straight streams of

Date: Sept. 10, 2019 Report No.: SZARR190903023-01 Page 5 of 12

Protective Equipment

Wear suitable protective clothing, gloves, eye/face protection and self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear

Section 6. Accidental Release Measures

Person precautions protective equipment and emergency procedures

Emergency response is unlikely unless in the form of dust. Avoid inhalation, eye, or skin contact of dusts by using appropriate precautions outlined in this MSDS (see section 8). Fine turnings and small chips should be swept or vacuumed and placed into appropriate disposable containers. Keep fine dust or powder away from sources of ignition. Scrap should be reclaimed for recycling. Prevent materials from entering drains, sewers, or waterways.

Environment precautions Methods and materials for containment and cleaning up Prevent to enter sewage, soil, river and sea.

Use the cleansing scoop to collect into container with lid that it dry and clean. Ventilate and watering after clean. Do not flush away residues with water. Retain as contaminated waste. Remove contaminated soil and dispose of safely

Section 7. Handling and Storage

Precautions for safe handing

Operating personnel must train specially and follow close to the line of operating instruction.

Ensure good ventilation/exhaustion at the workplace. Minimize vapor/aerosol generation and accumulation.

Wear suitable protective clothing, gloves and eye/face protection.

Do not eat, drink or smoke in working areas. Wash skin thoroughly before breaks and after handing.

Equip with relevant types and quantities of extinguishment instruments and device for divulgence handing.

Conditions for safe storage, including any incompatibilities

Store in cool, dry, ventilated place.

Keep container tightly closed in a cool, well-ventilated place.

Incompatibilities

Keep separate with the oxidizing agent.

Shenzhen Anbotek Compliance Laboratory Limited

Report No.: SZARR190903023-01 Date: Sept. 10, 2019 Page 6 of 12

Avoid contacting with oxidizer and strong acid. Keep the sample easy to be identified.

Section 8. Exposure Controls/Personal Protection

Control parameters

Occupational exposure limits

Tin: TWA - 2mg/m³ - USA. ACGIH Threshold Limit Values (TLV), USA. NIOSH Recommended Exposure Limits, USA. Occupational Exposure Limits (OSHA) - Table Z-1 Limits for Air Contaminants, PEL - 2mg/m³ - California permissible exposure limits for chemical contaminants (Title 8, Article 107);

Copper: TWA (Dusts and mists, as Cu) - 1mg/m³ - USA. ACGIH Threshold Limit Values (TLV), TWA (Fume) – 0.2mg/m³ - USA. ACGIH Threshold Limit Values (TLV), TWA - 1mg/m³ - USA. NIOSH Recommended Exposure Limits, USA. Occupational Exposure Limits (OSHA) - Table Z-1 Limits for Air Contaminants, TWA – 0.1mg/m³ - USA. Occupational Exposure Limits (OSHA) - Table Z-1 Limits for Air Contaminants, PEL – 0.1mg/m³ - California permissible exposure limits for chemical contaminants (Title 8, Article 107);

Silicon: TWA - 15mg/m³ - USA. Occupational Exposure Limits (OSHA) - Table Z-1 Limits for Air Contaminants, TWA - 5mg/m³ - USA. Occupational Exposure Limits (OSHA) - Table Z-1 Limits for Air Contaminants, USA. NIOSH Recommended Exposure Limits, TWA - 10mg/m³ - USA. NIOSH Recommended Exposure Limits, PEL – 10mg/m³ - California permissible exposure limits for chemical contaminants (Title 8, Article 107), PEL – 5mg/m³ - California permissible exposure limits for chemical contaminants (Title 8, Article

107);

Biological limit values

No data available.

Exposure controls

Monitoring Method

Not available data.

Appropriate engineering controls

Operations with potential for generating high concentrations of airborne particulates or fumes should be evaluated and controlled as necessary.

Personal protective equipment

Respiratory Protection

If the dust density exceed in the air, must wear mask, or self-contained

breathing.

Date: Sept. 10, 2019 Page 7 of 12 Report No.: SZARR190903023-01

Eye Protection Wear suitable chemical safety goggles.

Body Protection Wear work clothes.

Hands Protection Wear suitable protective gloves.

No smoking, dining and drinking water in the workplace. Keep good habit of Other Protection

hygiene. Shower and change clothes after work.

Section 9. Physical and Chemical Properties

Appearance Solid No odor Odor

Color : Black(Main)

Density No data available. Solubility No data available. **Boiling point** No data available.

No data available Flash point

No data available. PHe

No data available. Relative density

No data available. Viscosity

Tensile strength

N/mm²

Section 10. Stability and Reactivity

Stability Stable under normal temperature and pressure.

No data available

Distribution of Ban Strong oxidizer, strong acid, strong base, sulphur compounds, halogens,

carbon tetrachloride, chloride trifluoride.

Conditions to Avoid : Flame, heat, high temperature.

No data available. Hazardous

Polymerization

Hazardous Carbon monoxide, nitrogen oxides, and etc.

Section 11. Toxicological Information

Acute Toxicity: Tin: LD50 Oral - Rat - male and female - > 2,000 mg/kg, LC50 Inhalation - Rat

- male and female - 4 h - > 4.75 mg/L; Iron: LD50 Oral - Rat - 7,500 mg/kg; Silicon: LD50 Oral - Rat - 3,160 mg/kg;

Skin : Tin: Skin – Rabbit – No skin irritation -4h;

corrosion/irritation Copper: LD50 Intraperitoneal - Mouse - 3:5 mg/kg

Iron: No skin irritation.

Serious eye : Tin: Eyes – Rabbit – No eye irritation; damage/eye irritation : Iron: Eyes – Rabbit – No eye irritation;

Silicon: Eyes - Rabbit - Mild eye irritation.

Respiratory or skin

sensitisation

: Did not cause sensitisation on laboratory animals.(Iron).

Germ cell mutagenicity : No data available.

Carcinogenicity : No data available.

Reproductive toxicity : No data available.

Specific target organ : No data available.

Section 12. Ecological Information

Toxicity to fish static test - Morone saxatilis - 13.6 mg/l - 96 h(Iron); **Eco-toxicity**

No data available.

Biodegradable No data available. : No data available. Non-biodegradable

Bioconcentration or

biological

accumulation

: The product is non-biodegradable material. Directly abandoning in the Other harmful effects

environment may cause adverse effects.

Section 13. Disposal Considerations

Waste disposal

methods

: Recovery and reuse, rather than disposal, should be the ultimate goal of handling efforts. Dispose in accordance with federal, state, and local health

and environmental regulations.

Packed into bucket and sealing, prevent solution flow inside the bucket. Attention abandoned

Section 14. Transport Information

Maritime transport IMDG

IMDG Class No data available **UN-Number** No applicable. Label No applicable. EMS-No. No applicable. Tank instructions No applicable. Proper shipping name Led par light

Land transport ADR/RID(cross-border)

Hazard class No data available Classification code No applicable.

Shenzhen Anbotek Compliance Laboratory Limited

UN-number : No applicable.

Label : No applicable.

Packing instruction : No applicable.

Proper shipping name : Led par light

Air transport ICAO-TI and IATA-DGR

ICAO-TI-II class : No data available
UN/ID Number : No applicable.
Label : No applicable.
Packing instruction : No applicable.
Proper shipping name : Led par light
Environmental hazards : No data available

Special precautions for

user

Examine whether the package of the containers are integrate and tighten closed before transport. No divulgence, no collapse, no precipitation or no damage during the course of transportation. Don't put the goods together with oxidizer, acid and so on. The transport vehicle and ship must be cleaned and sterilized otherwise it is not allowed to assemble articles. During transport, the vehicle should prevent exposure, rain and high temperature. Under the condition of Road Transportation, the driver should drive in accordance with regulated route, do not stop over in the residential area and congested area. No slipping up in rail road. The sample is not regulated for transport of dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

No data available.

Report No.: SZARR190903023-01 Date: Sept. 10, 2019 Page 11 of 12

Section 15. Regulatory Information

NFPA Rating

Health, Fire, Reactivity : 0 0 0

SARA 311/312 Hazards

No data available.

SARA 302

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313

This material does not contain any chemical components with known CAS numbers that exceed the threshold (DeMinimis) reporting levels established by SARA Title III, Section 313.

Massachusetts Right To Know Components

See in section 3

Pennsylvania Right To Know

See in section 3

New Jersey Right To Know Components

See in section 3

California Prop 65

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Section 16. Other Information

The above information is based on the data of which we are aware and is believed to be correct as of the data hereof. Since this information may be applied under conditions beyond our control and with which may be unfamiliar and since data made available subsequent to the data hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose.
