

# INNO SPOT ELITE™

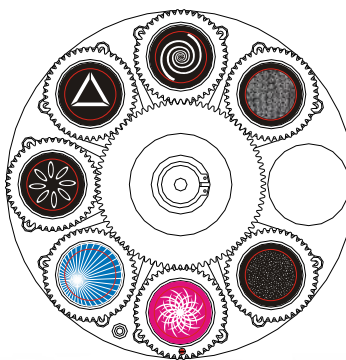

INNO Spot Elite is ADJ's flagship LED moving head with a high powered 180 Watt LED engine. It includes many professional lighting features such as motorized focus and motorized iris that can adjust the beam angle to an extremely narrow 3 degree beam. This fixture features glass and metal gobos that rotate and can be easily replaced via the removable access panel. Its high output and advanced features will make it right at home on stage, on the road, in nightclubs and in many light designers repertoire.
