

SP24LED

DMX SWITCH PAK

The SP24LED is a 24-channel DMX Switch Pack designed to turn LED fixtures on and off using a universal DMX controller (sold separately). Up to 21 SP24LEDs may be daisy-chained in one DMX-512 chain. There are 24 power inputs on the rear of the controller to plug your lighting fixtures into. The SP24LED is great for DJs, night clubs, bowling centers, roller rinks and permanent lighting installations.

Main Features:

- 24-channel Switch Pack with DMX In/Out
- Independently control On/Off for 24 LED fixtures
- Daisy-chain up to 21 SP24LED Switch Packs in one DMX-512 chain
- Rack mountable or hang from truss (Includes omega, quick lock, bracket for truss mount)
- 16 amp resettable breaker
- DMX Addressing: DMX DIP Switches
- Dimensions (LxWxH): 19"x5"x3.5" / 482.5x123 89mm – 2 rack spaces
