

Brighten up your event with the **Eliminator Lighting Stealth Spot** Moving Head. Take it anywhere, it's small and weighs only 10 pounds so it won't be a hassle whether you're playing locally or taking it from show to show on the road. Its compact size make it great for low ceilings in lounges, bars and stages, or for mobile entertainers.

Your crowd will be amazed when you hook this lighting effect up sound active to your music system and let it do the work or in DMX-512, or Show Mode; with its 8 built-in lighting shows you'll always have entertainment ready on the go.

The Stealth Spot has all the essential features to make fantastic lightshows. Keep it sharp with motorized focus, exciting with rotating GOBOs and a 3-facet prism effect, and of course you can't have an event without a controllable strobe. To improve the experience, use an Eliminator fog machine to get the most of your LED lighting experience. From weddings to clubs & lounges to stage shows, the Stealth Spot by Eliminator Lighting is a great addition to an essential component of any great event if you want to offer your patrons a night to remember.
